SEVERAL STATES SWEPT BY TORNADO

More Than Score of Persons Lose Their Lives

DAMAGES ARE $4,000,000

Many Structures Unroofed and Large Numbers of Persons More or Less Injured by Wind.

Chicago, March 28.—A score of persons were killed and a hundred or more injured yesterday by a tornado that swept the country and a number of towns north and west of Chicago, and ravaged some of the city's northwestern suburbs. The property damage ran into millions of dollars, including the demolition of many buidings, and the razing of telegraph and telegraph lines. Communication with rural regions was for a time cut off.

Six persons were killed, and a score injured when the tornado swept through the center of Elgin, Ill., about 30 miles west of Chicago, causing $4,000,000 damage to property. From Elgin the storm passed on to the northeast. Half a dozen business buildings two churches and 20 residences were demolished in Elgin.

Meager reports brought in by farmers indicated local damage in a widespread rural region. Falling telegraph and telephone poles cut off communication, and many trees, uprooted by the twisting wind, so tangled the wires that restoration of communication presented a difficult problem.

Four States, Illinois and Indiana, Georgia and Alabama, were swept by tornadoes and furious rainstorms yesterday, leaving a trail of dead and injured, homeless hundreds, wrecked office buildings and residences.

WOMAN KILLS HERSELF

Spent Hours Seeking Home, but Was Met Only by Sign "No Children Allowed."

Chicago, March 29.—"No children allowed!"

Everywhere Mrs. Agnes Ready went in her long, weary trudge for an apartment she was told the same cruel story. Pekinese spaniels, Japanese chows, canaries and even pedigreed cats, these would be welcomed, but not her babies, Albert, three years old and John, one and one-half.

Discouraged, Mrs. Ready kissed her two children, entered the bathroom locked the door and then shot herself through the temple.

When the father came home he found Albert and John playing in front of the bathroom door.

"Where's mamma?" he asked.

"She's in there," said Albert.

"She kissed us good-by and said 'I'm going on a long, long journey.'"

Mr. Ready forced the door and found his wife dead.

"We had received notice to remove from this apartment May 1," explained Mr. Ready, "because a member of the owner's family is to occupy it. My work as a building contractor prevented me from looking for another apartment; but Mrs. Ready has been looking every day since March 1. Money was no object with us. But it seemed she could not find an apartment where children were allowed.

"She became discouraged and then utely melancholic. Our youngest baby died four weeks ago. She became obsessed with the fear that we would be forced to live in a tent or in such fashion that would impair the children's health."

REVOLUTIONARY PLOT

Government is Determined to Maintain Order and Severe Measures Will be Taken

Lisbon, March 29.—A widespread revolutionary plot has been discovered by the government, which, an official communication says is determined to maintain order.

Severe measures will be taken against profiteering and food hoarding. Foodstuffs seized in shops and homes will be confiscated and the guilty persons punished.

WETS SEE MOIST FUTURE

Anti-Prohibitionists Tell us of Plots Against Tobacco, Teas and Coffee

Washington, March 28.—The Association Opposed to National Prohibition looks into the future through a glass darkly and sees:

The Women's Christian Temperance Union (aided and abetted by Anti-Saloon League) trying to make good its threat to annihilate the entire tobacco industry before 1924, the year of the semi-contennial.

The Anti-Tea and Coffee League led by Professor Frederick William Roman, head of Syracuse University department of economics is to war against these drinks after the country bans smoking.

But there is hope, for the association opposed to the drys declares that "its reports show that most of the people in most of the States purpose no longer to be exploited by either the political sandbaggers of the Anti-Saloon League or the political jobbers who agree on candidates for office in the back room of a saloon. A survey shows that, at every election from that held on November 4, 1919, to the present time, whenever prohibition directly or indirectly has been the issue, the drys has been routed horse, foot and artillery. The handwriting is on the wall."

NEW LONG RANGE GUN

Shell From "Turban Cannon" Traveled 100 to 120 Miles in Tests

Paris, March 29.—Delamare Maze, a French inventor, Saturday sold to the French Government the patent on a new long range gun, which, after thorough tests, has shown it has a range of from 100 to 120 miles. The shell leaves the muzzle of this gun at a speed of about 4,178 feet per second.

Premier Lloyd George announced in the British Parliament recently that England had been negotiating with France to secure the right to use the plans for the new gun, and the Belgian government now is manufacturing a similar cannon at Liege. American military attaches in Europe have written to the Government, asking that American representatives may be present at tests of the weapon.

In connection with the development of this piece of ordnance, which is called the "Turbon cannon," it may be recalled that two years ago last Tuesday the Germans began to bombard Paris with their long range "Big Berthas," the shells falling on the city as it from another planet. This bombardment was one of the sensational developments of the German hosts against the British and French on the Picardy front.

Bonds and Stocks on Train

Paris, March 29.—Bonds and stocks to the amount of 60,000,000 crowns weer found recently in a leather bag in a Paris Warsaw train by a Polish customs official at the frontier. The bag was hidden in a lavatory.

The contents of the bag were confiscated by the Polish Government, as it is believed they were destined for Bolshevist propanganda in Central Europe.

WHO WON THE WAR?

Over in London one day last June or July the color sergeant of the Fifth Regiment of Marines was sitting on the veranda of a quite well known hotel with his pal, the standard sergeant. He was an old timer and quite well known for his ready wit and quickness at repartee as well as his ability as a soldier, which latter had earned him the high honor of his position.

There was a slogan universally known throughout the A. E. F. "Who Won the War," with which men from different regiments and divisions were in the habit of greeting each other.

Down the street came a bunch of British Tommies, about three sheets in the wind and requiring plenty of sea room in which to navigate. One of them spied the two leather necks and called out, with a kind of nasty sound in his voice. "Hey, you Yanks, who won the war?" Without a moment's pause the standard sergeant made reply, "Which one do you mean, '76 or 1812?"

If you like men of the standard sergeant's type and would like to travel around and get a look at out of the way places with a quick thinking, quick hitting outfit that are always ready for a fight, a feast or a frolic, come up to 605 King street and talk it over with Sergt. Bruce at the Marine Recruiting Office.

SEMINOLE PLAYERS TO PRESENT MINISTREL

The Seminole Players, an organization composed of the best amateur talent of the city, will present a minstrel performance in May for the benefit of Canton Alexandria No. 1, Odd Fellows.

These players have been organized for four seasons and they need no introduction to an Alexandria audience as their performances have always been well worth the price of admission.

During the war many of the members were in the service and on the battle front, all have returned and will be seen in this season's show.

This organization is composed of 60 or more performers and they have on its roll 15 Honorary members who are professional and business men of the city, the K. of P. Hall is their headquarters and they meet every Friday evening for social and business purposes. The first rehearsal for the minstrel will be held this evening in Odd Fellows Hall, North Columbus street at 7.30 p. m. and a full attendance is requested by those in charge.

HINTS WILSON VOYAGE

Automobile Trips Continue as Executive Grows Stronger

Washington, March 29.—Preparations for a short cruise by President Wilson on the Mayflower to aid in rebuilding his shattered nervous system are indicated by overhauling of the Presidential yacht now under way.

It is believed that before many weeks it will be possible for the President and Mrs. Wilson to enjoy week end trips on the Potomac and Chesapeake Bay.

With the advent of warm weather it is possible that a more protracted cruise on the Mayflower may be planned. It is expected that the White House family will not leave Washington until well into the summer, as Dr. Grayson believes the President can be more comfortable at home.

Although President Wilson shows constantly increasing strength, according to White House bulletins there has been no resumption of Cabinet meetings canceled when Secretary Lansing was dismissed. Cabinet days come and go without any indication from the Chief executive that he will ever assemble his official family again. The President feels no need of this and continues to dictate his own program and see that it is carried out.

NEW FORM OF "FLU"

Attacks Brains of Children—Medical Men Are Puzzled

A new form of influenza, which attacks the brain of its victims, is taking unhindered toll among the children of Vienna, according to a report received Saturday by the American Red Cross. The malady thus far has defied medical science. It leaves the sufferer stupefied and terribly emaciated.

One child, aged 7 years, fell sick and at death weighed but 29 pounds. All steps possible have been taken to prevent a spread of the epidemic, but there is almost a famine of medicine, supplies and food in Vienna. The extraordinary cold weather of the Austrian winter contributed largely to the prevalence of the epidemic among the children Without food and clothing, and in a greatly weakened physical condition, they quickly succumbed to the disease.

REVISING THE CENSUS

Alexandrians were greatly disappointed several weeks ago when, according to the census figures, it was stated that the population of our city had not increased three thousand in ten years. It had for some time been supposed that it had been almost doubled during the past two or three years.

And there was reason for this impression from the fact that several thousand new citizens, many with their wives and children, had come to live with us during that time. These numbers were augmented by the arrival here of many merchants also, who always follow increased population. Yet here were cold figures, which are not supposed to deceive.

The people of Richmond were also greatly disappointed at the report on the capital city. They believed the figures were erroneous, and set to work to ascertain for themselves the actual number of inhabitants. The result has been gratifying, as 2,000 were added by the police during the first day's investigation, and they believe they will be able to show that the census enumerators ignored at least 20,000. Ab uno disce omnes (from this judge the remainder) is an old saying, and if Richmond has suffered such an injustice, why should not Alexandria make a protest against the census report?

Steps to secure a recount of Alexandria's census will be taken at a meeting of the Alexandria Citizens' Association to be held in Odd Fellows' Hall at 8 o'clock on Wednesday evening. Evidence is accumulating every day to show that some of the enumerators failed to secure records of entire families and that certain sections of the city were overlooked as the belief of many persons.

AMERICAN ARISTOCRATS

Sub-committee of hard coal miners and operators are trying to reach an agreement on wages. The sessions are held in New York. What the miners want seems to be about this: Sixty per cent increase in wages; two dollars more a day counting five days to the week.

The Philadelphia Inquirer asks, "At such rates, what would we all be paying per ton for coal? Four dollars, five dollars extra?

"Well, there are some persons who could pay it. They compose the aristocrats of America, of which there are two classes.

"The first class is largely made up of the profiteers and get rich quick speculators produced by the war. They are mostly men who never before saw so much money and don't know what to do with it. The newly rich man would just as soon pay $20 for a ton of coal as $10—would prefer to do so, in fact.

"Then there is the second class—the aristocrats of labor. The departments fairly threw money away during the past few years. Unheard of wages were promised, and the industrial establishments and the farms were denuded. The lure was government work at any price. Scores of thousands of able men who ought to have been fighting in France fought for fabulous emolument. Instead of conscripting labor at fair wages, as armies at a dollar a day were conscripted, the government held out tempting prizes in the shape of bursting pay envelopes. And so there were organized the aristocrats of labor.

"We still have them with us today in large numbers. The man who won't turn a spade unless a lump of gold comes up with it, or who won't drive a nail unless there is a dollar in sight for every blow, can afford to pay any price for coal along with the profiteer.

But there are vast masses of the people between these two favored classes of aristocrats whose salaries do not keep pace with every increased cost of living. What of them? They are the real sufferers. It appears that their rights call for no respect whatever."

BEGGING IS PROFITABLE

As was the case during our civil war, the present increase in population has brought new faces of the mendicant fraternity to our midst. Most of this class appear here on Saturdays. Some pretend to sell pencils in order to attract the attention of passersby, while occasionally others emit sick music from accordeons or the commoner class of organs.

Begging, of all the nonwhite collar jobs, is said to be the most lucrative in New York. This was demonstrated recently before Magistrate Steers when Arthur Harrison 26, who had been arrested for pleading for aid on the strength of a fake injury to an arm, admitted that he had taken in $13 in one hour.

"Let's see," said the court, "At that rate, a union 8 hour day would bring in $104, or $37,960 a year. Rather a tidy income for a man who does not work."

Arthur was given six months in the penitentiary, where begging is not so lucrative a job.

REPORTS GROUNDLESS

Woodbury Girl at Prague Writes of Ample Food and Brilliant Balls

Woodbury, N. J., March 29.—Miss Miriam Woolley, of this city, who is private secretary to the wife of Ambassador Crane, representing the United States at Prague, Czecho-Slovakia, writes denying emphatically the reports sent broadcast over the United States that Czecho-Slovakia is starving, multitudes dying, and everything hopelessly Bolshevik, Miss Woolley says:

"We are real mad over here about it. That article was written by a man who came over here and tried to pull off a crooked cotton deal, having failed, went back and slandered this country. We have loads to eat and people generally do, although in the Erzgeirge and some districts of Slovakia there is some suffering. Relief work is being done, and a great majority of the peasants in Bohemia are better off than would be supposed."

Miss Woolley further says that she never saw so many balls as were given in February, two and three a night, and some were along most gorgeous lines.

Where is Relief From Blazing Skin Diseases?

Must I Endure Forever the Torturous Itching?

The skin is fed from the blood, and upon the condition of the blood depends whether or not your skin will be healthy and free from boils, pimples, scaly irritations, red eruptions and other disfiguring and unsightly disorders.

The sensible treatment that will show real results is a remedy that will cleanse the blood thoroughly and kill the germs that cause the trouble. And for this purpose no remedy ever made can approach the record of S. S. S. which cleanses the blood of the disease germs, at the same time building up the general health.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause!

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

Only $10.00 Down

For the small down payment of $10.00 we'll send you a Gainaday. Then for two weeks you can try the Gainaday yourself.

Easy Payments

The first payment of $10.00 doesn't necessarily obligate you to buy—and it's less than the amount the Gainaday will save you over the same period of time. The payments that follow are small and easily met.

Swinging Wringer

Remember, too, that the Gainaday has every washing machine convenience; that it has a swinging wringer, copper tub, zinc cylinder, all steel frame and that it is completely guaranteed.

Telephone today, write, or come in for demonstration.

With the Bailiff at the Door

Beau Brummell shaved serenely on

BEAU BRUMMELL who "taught Wales what a coat was like"—inventor of numberless niceties of dress—gambled himself into poverty. Publicly cut by the King, he had his last remaining finery laid out preparatory to seeking a friend who might save him from disgrace. With Weston, his faithful valet, keeping the door against the bailiffs, the great beau shaved serenely on. Prince of the Dandies to the last, he finished the job with the utmost care. Then, carefully wiping dry the precious blade and affectionately placing it in its case, he turned to Weston with the command: "Now let the rogues in."

The razor that Beau Brummell used was a shaving tool of wonderful balance. Length, temper and correct diagonal stroke were there; all it lacked was the safety and convenience of the double-edged, detachable blade of the

MASONS RECOVER MEDAL

Fredericksburg, Va., March 29.—A ceremony took place at the Masonic Lodge here Saturday night when T. S. Clay, of New York, presented Lodge No. 4, A. F. and A. M., with a historic medal issued by the lodge shortly after the death of George Washington.

Clay, who is a native of Fredericksburg, found the medal in an old curio shop in New York. On one side of the medal, which is of heavy bronze is a likeness of Washington. Underneath this are Masonic emblems and the Washington monogram. Below this are the words, "He was a brother of the Mystic Tie." On the reverse side are a number of Masonic emblems, the Washington coat-of-arms and the words, "Fredericksburg Lodge, In the Lord is all our trust," and the date of Washington's initiation in the order. The medal is handsomely and artistically designed and will be a great addition to the collection of Washington relics belonging to the lodge in which the first President was made a Mason.

KILLED BY RADICALS

Captain and Companion Bombed While Leaving Friedrichshaven

Berlin, March 29.—A tragic sequel to the assassination of Dr. Karl Leibknecht, the Socialist leader, has taken place in Friedrichshaven.

Captain Pflugartung, who was among the officers who were taking Liebknecht to Luxemburg the day Liebknecht was killed, was about to start for Berlin yesterday in an automobile with a party of friends. A quarrel arose between Pflugartung and local Communists, who declared that Pflugartung would not be permitted to leave Friedrichshaven alive.

A hand grenade was thrown into the automobile, killing Plugartung and one of his companions and wounding several others of his guests and also some soldiers who were standing near by.

But Still Don't Feel Strong and Well, Probably the Blood Needs Strengthening

Pepto-Mangan Will Do It

Sold in Liquid and Tablet Form Both Possess Same Medicinal Value—Insist on "Gude's"

It's not just laziness that robs some people of their energy and spirits. Sometimes their blood is simply too weak to supply the necessary fuel and oxygen to the body.

Nothing will restore strength to a thin-blooded body unless the blood itself is made strong, red and rich.

Gude's Pepto-Mangan furnishes thin, watery blood with the necessary nourishment to enrich it, enabling it to suply energy, vitality and strength to every part of the body.

Physicians recommend Gude's Pepto-Mangan to patients suffering from anemia because its beneficial and lasting qualities are well known to the medical profession.

Gude's Pepto-Mangan is obtainable in either liquid or tablet form. Both forms contain exactly the same strength and medicinal properties.

When you buy Pepto-Mangan of your druggist, be sure the name "Gude's" is on the package. Without "Gued's" it is not Pepto-Mangan.

Requires Courage to Face Lions

As Roxie Kemp, dainty Enid Bennett, Thomas H. Ince's Australian star in Paramount Pictures, actually goes into the lion's cage in "The Biggest Show on Earth," her third picture under these auspices. It was some ordeal, but Miss Bennett watched the real trainers doing the stunt for a long time before she screwed up courage enough to mingle with the animals, dressing much after the manner of the real trainer. She was greatly frightened when a load of meat for the jungle kings arrived during a rehearsal and they howled savagely on scenting its savory odor. "The Biggest Show on Earth" will be displayed at the Grand Theatre tonight. Also Chapter 6 "Trail of the Octopus."

BLIND FROM ALCOHOL

Woman Friend Died From Poisoning, After Party in Atlanta Apartment

Atlanta, Ga., March 29.—Charging she was given wood alcohol with murderous intent to prevent her giving damaging evidence, Mrs. Catherine Bristol, of Philadelphia, formerly of Atlanta, has filed suit here against John Kelley, of Atlanta, for $150,000 damages. Mrs. Bristol alleges as a result of having drunk the poison she is totally blind.

Mrs. Bristol in her petition alleges the defendant gave her the poison to prevent her from testifying that he had made threats against the life of Miss Lucille Sharp, former Atlanta girl, who died several months ago in Baltimore.

Baltimore, Md., March 29.—The suit of Mrs. Catherine Bristol, of Philadelphia, in Atlanta against John Kailey, is the aftermath of a tragedy in Baltimore last November, Miss Lucille Sharp died November 23 after drinking what was believed brandy in the Kelley apartment.

Mrs. Bristol drank some of the liquid and for nearly two months lingered between life and death at Johns Hopkins Hospital. She finally was able to leave the hospital, but is blind.

VIOLIN QUELLS MOB

London, March 29.—"Lucca was the scene of an extraordinary incident one day last week which recalls the classic fable of Orpheus with his flute, who charmed wild beasts with his music."

The playing of a boy violinist suddenly halted a mob in the streets of Lucca and the rioters abandoned their violent purposes. The violinst is Rosa Prikoda, a Bohemian lad of 18, who wandered to Venice fourteen months ago and was at Lucca during the Socialist agitation. A great crowd assembled, Enrico Maletesta, an anarchist leader, made a harangue which excited his hearers to fury, and, ready for any excesses they started through the main street to the public square.

On the balcony of his hotel near the entrance to the square, the Bohemian boy was playing his violin to a few admiring people below. The first of the mob reached this group, listened to the violinist and remained fascinated by his playing. All the others stopped to listen and as the boy continued to playing their fury subsided. Instead of smashing heads they applauded him and half an hour later were all walking quietly to their homes.

U. S. WANTS GUARANTEE

Washington, March 29.—The American Government, it is learned, has informed the Allied Powers it will not oppose the sending of additional German troops into the Ruhr Valley if necessary to restore order there, provided they remain only until normal conditions have been restored and that there will be no further occupation of German territory by the Allied forces.

Paris, March 29.—The Allies have not yet given the Germans permission to send troops into the Ruhr district. The French continue to insist that military occupation of the neutral zone by Germans would further endanger execution of the Peace Treaty, declaring that there would be no way of getting them out again except by force.

TO WORK ON FARMS

Nashville, Tenn., March 29.—The shortage of farm labor will be relieved in part in Tennessee by the parole of prisoners from the penal institutions. Governor Roberts announced today that so many appeals have reached him for assistance that he had decided to parole to farmers every inmate of the State prisons wso could comply with the parole requirements.

Farmers attribute the shortage of labor to high wages being paid in cities, which have drained the rural districts of young men.

ARREST MAN COMPANION

Frequenter of Girl's Company Held Strangled Corpse is Found

Los Angeles, Cal., March 29.—A man the police said had been seen frequently with Mrs. Ruby Reed, a young divorcee, was under arrest today in connection with the finding of Mrs. Reed's body in her apartment Thursday night. She had been garroted with one of her undergarments and a man's handkerchief was stuffed in her mouth.

The body was hidden under a pile of clothing and the landlady of the apartment house said she had not noticed it when she visited the room earlier in the day.

The police believed Mrs. Reed had been dead since Wednesday. They added that they were positive robbery was not the motive for the killing.

EXAMINE OUR GRADES WHEN CONSIDERING PRICES:

With prices on Lumber and other Building Materials at their present levels, there are many items in the lower grades which can often be substituted satisfactorily and at a considerable saving.

We have become so much impressed with the possibilities of doing this to advantage that we are exercising the greatest care in buying only from those mills who pay the closest attention to the manufacture and grading of their lower priced stocks.

We ask our customers to examine these grades when buying as we believe they will find some excellent values, and a knowledge of what a carefully selected lower grade really is will often prevent the buying of a so-called higher grade at a little under the market price for the high grade, when it is actually a lower grade and can be bought as such.

VIRGINIA NEWS

Special classes taught by specialists are to be formed at the Marine base at Quantico, during April.

Milton J. Heflin, 45 years old, school teacher, ended his life at his home near Warrenton Saturday with a shotgun. He recently had been indicted by the grand jury charged with shooting his wife. She recovered after a month in a hospital and had been staying with a neighbor this week. They had been married fifteen years and had several children. Heflin had been in charge of a school at Meetze.

In the presence of his eldest son, who was aiding him in his work, Emmett T. Dudley, aged 40, for 20 years a lineman in the employ of the Charlottesville and Albemarle Railway Company, met instant death last week while changing a transformer on a power pole, near Fry's Spring, in the vicinity of Charlottesville. His hands came into contact with a 2,200 volt wire and he fell to the ground.

Averaging more than fifty names each, 39 members of the Richmond Police Department, detailed to aid the Federal census takers in enumerating the residents of Richmond, reported startling conditions Saturday. Results of the first day's work by Richmond's bluecoats showed upwards of 2,000 persons who had been overlooked. One patrolman, within a space of three hours, turned in 58 names of persons who are said to have been missed. Chief of Police C. A. Sherry last night stated his belief that his men would enumerate more than 20,000 persons within the next few weeks.

Because it would mean multiplication of units doing the same work, Governor Davis Saturday notified Colonel John W. Williams, keeper of the Rolls of Virginia, that the bill appropriating the sum of $30,000, to be used in securing a building to do orthopedic work among children ,has been vetoed. One of the bills Governor Davis approved was House bill, 145, increasing the maximum compensation that fee officers may receive in the various communities they serve by $1,000 in each class, according to population, and placing the counties in this respect, on the same basis as the cities.

Billy Sunday, in the course of one of his sermons at Bristol, last week, touched on the coming Presidential conventions, declaring that if the Democratic party put a wet plank in its platform the country would go Republican and if the Republican party put a wet plank in its platform it will go Democratic, and if both parties put out wet planks "Bill Bryan and Billy Sunday could head a third party and sweep the country. Bill can sit on the job at the White House, while I go over to the Senate and tell the Senators where to head in." Sunday also stated at oen of his meetings that he believed Truman Newberry was not guilty of any crime, as he had known him well for a number of years and that he was a fine man. Sunday said, "He has my sympathy and confidence 100 per cent."

LABOR CALLS TO BATTLE

Leaders Ask For 50,000 Committees To Wage Political Drive

Washington, March 29.—Despite the opposition organized labor has encountered so far in its program to drive from public office those officials opposed to the demands of the labor movement, the campaign of the Labor National Nonpartisan Political Campaign Committee goes merrily on.

Last night a call went forth from the American Federation of Labor asking that 50,000 additional committee members be appointed by the 40,000 local unions. These new committees are expected to co-operate with the committees appointed by city central bodies and other organizations.

The committee directing the political campaign, which is composed of Samuel Gompers, Frank Morrison and James O'Connell, is not disheartened by the evidence of determined opposition to the movement from members of this Congress.

SCHOOLHOUSE FIRED

New York Youth Affected by New Kind of "Spring Fever"

New York, March 29.—A new form of "spring fever" was described yesterday by detectives following a non medical but extremely thorough examination of Malcolm Rae, seven and Samuel Koskin, 10, pupils of Public School 23.

According to the detectives, the lads confessed they set fire to the school building, because it was spring and they didn't want to go to school any more.

The fire was extinguished with slight loss, however.
